WARSAW, November 3. - The President of Poland returned to Warsaw yesterday at the end of his state visit to Pakistan.

Marshal Spychalski thanked the people of Pakistan for the warm welcome given to his delegation during its stay in that country.

In a statement, he also said his visit to Pakistan had revealed an identity of views between the two countries on international matters and on the possibility of developing bilateral relations.

The Polish President had to cut short his visit to Pakistan by one day because of the tragedy at Karachi airport in which the Polish Deputy Foreign Minister, Mr. Zygfryd Wolniak, was killed.

Marshal Spychalski said that the Deputy Foreign Minister was killed when struck by a heavy lorry at the airport. He, however, hoped that the public will get the true picture of what happened in Karachi after the completion of the investigation by Pakistan authorities.

The Polish Communist Party leader, Mr. Gomulka, headed by the group of top Government and Party officials to receive President Spychalski and his delegation on their return home. The only diplomats present at the arrival ceremony were from the Pakistani and Soviet Embassies.

The coffin of the late Deputy Foreign Minister wrapped in the red and white flag arrived by the same plane. His funeral is to take place tomorrow.

The Pakistan delegation left Karachi last night for Warsaw to represent the country at the funeral.

The delegation includes the Governor of Sind, Lt.-Gen. Rakhman Gul, the Agriculture Minister, Mr. Mahmud A. Haroon, Chief of Protocol, Mr. M. Anwar Khan, and Brigadier Ghulam Husain of the Pakistan Army.

He has been charged with murder and attempt to murder. Police officials yesterday visited the scene of the tragedy.
